

WORKSHOP

Stephan Hausner

Illness & Soul – Systemic Constellation Work As A Path To Health And Healing

October 11-13, 2024, Middelfart, Denmark

With an extraordinary depth and connection Stephan Hausner facilitates systemic constellations of primarily family systems to free and heal traumas and dynamics creating sickness and health issues in our lives and family systems. His work opens a whole new understanding of how connected illness and health are through generations and life events.

This workshop offers the opportunity to place personal issues as well as to learn from Stephan's work through reflections and questions. The atmosphere will be confidential and open for the potential transformative steps.

The impact of his work is quite evident for my life professionally, personal as well as for my family and I am happy to welcome and host this international event in Denmark.

Workshop language is English.
